Something Fishy: A Tale of Improvisation

Thomas Harper, MD
Ophthalmology Associates, PSC
Literature

- 5 cases
- None penetrated globe and eyelid simultaneously
- 4 of 5 had 20/30 vision or better following repair
Hook Advance Technique
Bartholomew and McDonald, BJO 1980

- Two cases
- Barbs advanced and externalized before removing the barb.
- Both achieved acuities of 20/30
Eyelid Splitting Technique
Treble Hooks:
Bad For Fish
Worse For Humans
